MEET ALEXIS

Alexis enrolled in a \$50,000 universal life insurance policy through her employer. This policy includes the Chronic Condition Rider — a feature that helps provide money for care if she were to fall ill. It lets her access her death benefit early if she's diagnosed with a qualifying condition that leaves her unable to perform at least two of the six Activities of Daily Living, which include bathing, dressing, toileting, transferring (e.g., ability to get into or out of a chair or bed), continence, and eating. Alexis feels better knowing there would be financial support for her family if she passes.

¹ Loans, withdrawals, and death benefit accelerations will reduce the policy value and the death benefit and may increase lapse risk. Policy loans are tax-free provided the policy remains in force. If the policy is surrendered or lapses, the amount of the policy loan will be considered a distribution from the policy and will be taxable to the extent that such loan, plus other distributions at that time, exceed the policy basis.
